Mobile NTP

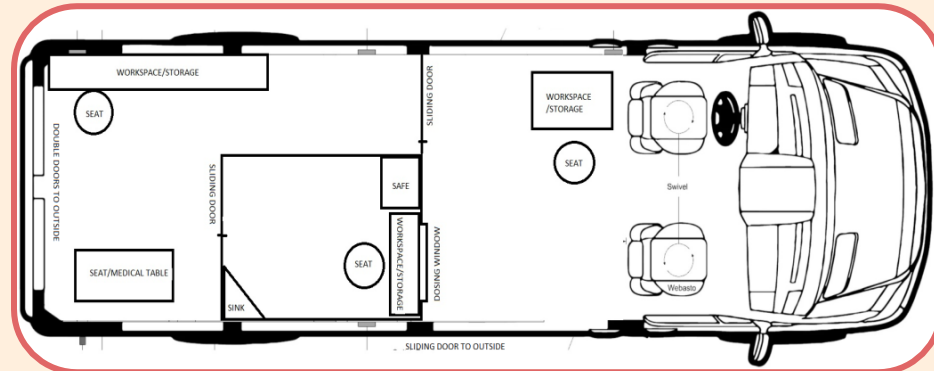

Conception

2022

February

Creating a proposal for a mobile narcotic treatment program

- Visited other programs using mobile treatment vans
- Consulted DEA NTP guidelines
- Obtained initial quotes from mobile vehicle design businesses
- Created initial drafts of a mobile unit

Proposal

2022

March

Submitted Proposal for Examination and Treatment Act Grant Program (ETAGP)

- Proposal Included:
- Ford Transit Cargo Van
- Mobile Medical Van Customization
- Salaries for 2 additional staff (Full time counselor; Part time nurse)
- Additional materials, supplies, training, and equipment

Implementation

2022

August Department of Health awarded ETAGP funding

- Began meeting with TechOps Speciality Vehicles
- Finalized sketch of the vehicle along with DEA NTP regulations to include the placement of the safe, dosing area and security of the vehicle
- Obtained initial quotes and timeline for completion of the project

Considerations

Vehicle Location	<ul style="list-style-type: none">● Where the vehicle will be parked● Will medication be taken off the vehicle at the end of each day● Is there electric hook up available
Vehicle Type	<ul style="list-style-type: none">● Maintenance● Size● Who can drive it
Space	<ul style="list-style-type: none">● What services do you anticipate needing on the vehicle● Consulting DEA NTP Guidelines
Material Availability	<ul style="list-style-type: none">● Timeline of production will be based on the availability of items
